- An EPP's selection of program review option(s) will be determined by the CAEP-state agreement. EPPs, in the absence of a CAEP-state agreement can choose among the three program review options; however, if State Program Review is selected, the EPP must coordinate with its respective state to receive and provide to CAEP the state agency report on the EPP's specialty areas.
- CAEP offers three program review options for its state and non-US partners to choose from:
  - SPA Program Review with National Recognition
  - CAEP Review with Feedback
  - State Program Review options.
- The state may choose from among the three options or a combination of them for the review of specialty licensure areas by EPPs within its jurisdiction.
- More information regarding program review options can be found in the CAEP-State Partnership Agreements or by contacting state representative directly.
- If an EPP does not submit its specialty licensure area for review in accordance with existing state or international partnership agreements, CAEP reserves the right to reschedule the site visit.
